## Mandatory Language for Public Notice Routine Monitoring Violation Total Coliform Rule

The City of Boyd PWS ID # 2490002 failed to collect the required number of bacteriological samples for coliform monitoring of the water distribution system during (April 2015, September 2015, and November 2015.) This monitoring is required by the Texas Commission on Environmental Quality's "Drinking Water Standards" and the federal "Safe Drinking Water Act," Public Law 95-523.

Bacteriological samples are used to monitor water quality and indicate if the water is free of coliform bacteria. Our water system is required to submit two bacteriological samples each month. Failure to collect all required bacteriological samples is a violation of the monitoring requirements and we are required to notify you of this violation.

If you have any questions regarding this violation, you may contact Adam Lambert at 940-433-5166.

Sincerely,

Adam Lambert  
Director of Public Works
